

Information about yourself

General comments:

1) Missing values:

- System missing = 99
- Does not apply = 88

2) Names of all variables collected at T1 start with “A_” (for T2, it will be “B_”)

3) Please put all optional (country specific) variables that are not listed in this codebook at the end of the dataset. Name of the variable should indicate that it is an optional variable (“Z”), time of data collection (“A”), and the country. For example, if Swedish team decides to collect data on participants’ support for political parties, the name of the variable could be “ZA_support_SWE”. Use the same format also for your local technical variables (e.g., “ZA_id_ITA”).

4) Country codes are ITA, SWE, GER, GRE, POR, CZE, UK, EST.

5) Please insert to the SPSS file appropriate variable labels for all country specific variables (e.g., in the case of “A_Eduplan”, insert labels for educational degrees used in your country).

6) Some items are not used in the questionnaire for the older age group. Several items that are used only for the older age group are marked with light orange color.

Variable list:

Country	1 = ITA 2 = SWE 3 = GER 4 = GRE 5 = POR 6 = CZE 7 = UK 8 = EST
ID	Insert a five-digit number where first digit indicates country. Hence, participants’ IDs should be 10001, 10002, 10003... in Italy, 20001, 20002, 20003... in Sweden etc.
Agegroup	0 = younger 1 = older
A_Format	0 = paper 1 = online
A_Classroom	Insert a five-digit number indicating country (first digit), school (second and third digit) and classroom (fourth and fifth digit) where data was collected. For example, codes 70201 and 70202 indicate two different classrooms from the same school in the UK. Codes 31001 and 31101 indicate two different classrooms from two different

schools in Germany.
88 = data was not collected in school
